ADVANCED FLOW
SYSTEMS

Abflussrohre und Formstücke / Drainage pipes and fittings

- Verlegefreundlich - kein Schweißen oder Kleben erforderlich
- Korrosionsbeständig
- Schwerentflammbar
- Heißwasserbeständiges Rohrsystem – bis zu up 95°C
- 100% recyclebar
- Qualitätsgarantie – ISO 9001:2008
- Easy to install – no welding or gluing required
- Corrosion resistant
- Flame retardant material
- Hot water resistance up to 95°C.
- 100% recyclable
- Quality guarantee ISO 9001:2008

■ Beschreibung

Polypropylen (PP), hergestellt nach DIN EN 1451-1 bzw. ISO 7671:2003, heißwasserbeständig, dauerhaft schwer entflammbar nach DIN EN 4102 B1.

■ Anwendung

Entwässerung innerhalb von Gebäuden als
- Schmutzwasserleitung
- Regenwasserleitung
- Lüftungsleitung

■ Farbe

Staubgrau RAL 7037, halogen- und cadmiumfrei.

■ Dichtung

Werksseitig eingelegter Lippendichtring.

■ Chemische Beständigkeit

Ableitung von aggressiven Medien im Bereich pH 2 bis pH 12.

■ Kennzeichnung - Rohre und Formteile

Dauerhafte Kennzeichnung mit Herstellerzeichen, Nennweite, Normenbezeichnung (DIN EN 1451-1), Fertigungsdatum und handelsname – HULIOT.

■ Description

Polypropylene (PP), produced according to EN 1451-1 and ISO 7671:2003 respectively, resistant to hot water, permanent low inflammability as per EN 4102 B1.

■ Application

Building drainage as
- Waste water pipe
- Rainwater pipe
- Ventilation pipe

■ Colour

Dusty grey RAL 7037, halogen and cadmium-free.

■ Seal

Factory inlaid lip seal.

■ Chemical resistance

Discharge of aggressive media in the range of pH 2 to pH 12.

■ Marking Pipes and fittings

Permanent marking with manufacturer label, nominal diameter, EN standard (DIN EN 1451-1), date of manufacture and manufacturer's commercial name – HULIOT.

Abflussrohre und Formstücke / Drainage pipes and fittings
