# ABOUT US

SDC was founded in 2009 by two people; an engineer, experienced in the security industry, and an entrepreneur.

The initial concept was the distribution of branded equipment to the security and automation professional market.

Currently SDC supplies high quality security and automation products to licensed professional installers/integrators in Cyprus, Greece and Malta.

Our extensive collaboration with leading manufacturers, has further developed our technical knowhow and expertise. Our project division now designs specialized solutions with cutting edge technology to corporations, airports, utility providers, hospitals, education centers, and other organizations.

# OUR SERVICES

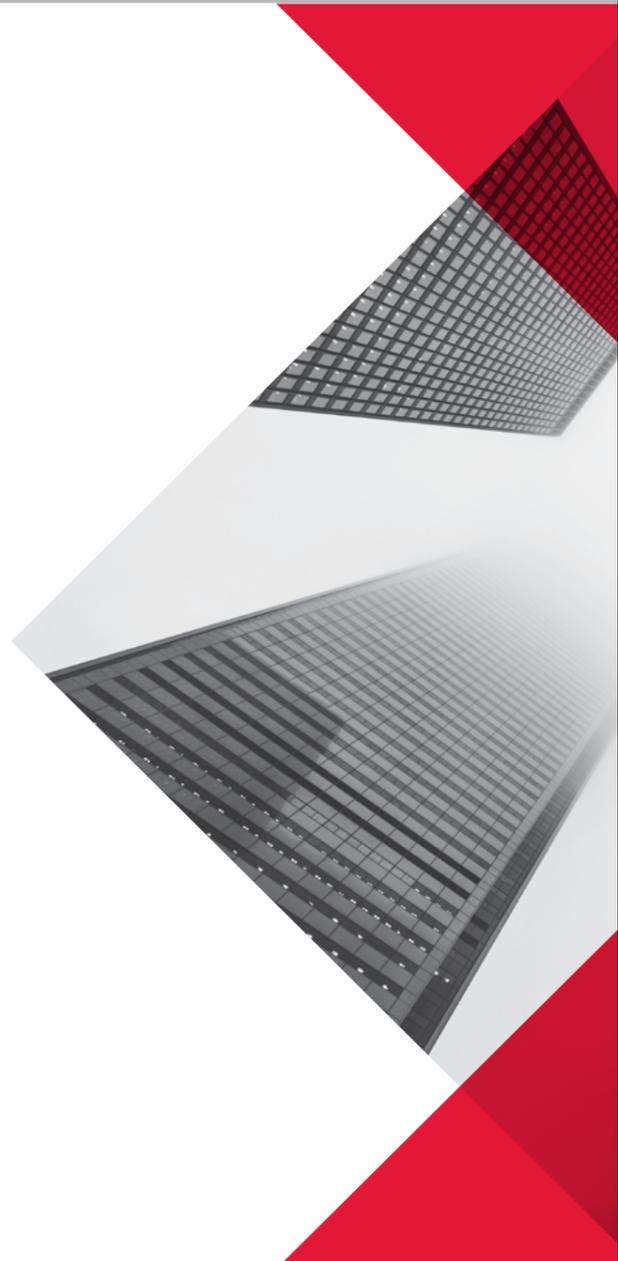

Within our industry, it is commonly accepted that very few professionals possess in-depth knowledge about existing and emerging technologies. The interdependence of servers, computers and networks with any technological industry poses a security vulnerability, requiring professional expertise in a variety of domains.

SDC continuously evolves and keeps up-to-date under the guidance of some of the largest and most prestigious manufactures in the industry like Tyco Security & Fire Group, Urmet Group, Optex Group, FLIR, Cisco and other specialised brands.

The close cooperation with our partners and adherence to strict guidelines has allowed us to upgrade our standard

and further enhance our professional skills and quality of service. This ongoing practice ensures that our knowhow and the first level of support to engineers and IT professionals meet the high standards of our brands.

Our job is to understand each customer's unique needs and propose the right solution, utilizing the appropriate technology according to their requirements and budgets while working closely with the customer's consulting office of choice to ensure optimal results.

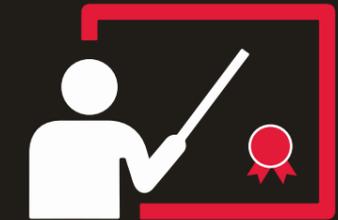

## DESIGN

Our experienced team of engineers, under the supervision of our manufacturers, designs customized and certified security solutions.

## SUPPORT

Our support team consists of experienced and certified engineers who solve customer issues in conjunction with the manufacturer's support.

## TRAINING

We organize trainings and provide product/solution certifications to industry professionals and operators.

# OUR PRODUCTS

Tyco Security Products and its leading brands conduct business in over 177 countries around the world, in multiple languages and employ over 2,800 employees globally, including research and development, marketing, manufacturing, sales, service and logistics teams in the Americas, Europe, the Middle East, Africa, and Asia Pacific.
